Kaiga Atomic power plant

153 (379)

Sri Bellada Chandrakanth Gurappa (Dharvada): will the Hon'ble Minister of State for Energy be pleased to state

1) What are the benefits to the State from Kaiga Atomic Power Plant?

2) What is the estimated cost of this project?

3) What is energy production from this project?

4) From what date the power will be supplied from this project and what amount of energy supplied?

Sri. VeeraKumar Patil (MINISTER OF STATE FOR ENERGY):

1)The following are the benefits to the State from Kaiga Atomic Power Plant.

i) Since this Atomic Power Plant is established in the State, the State will get 10% extra share than neighbouring state

ii) The availability of elcetrical power to the State is slightly increased, since more share of power to the state is availabe (54 MW power is available at present). So, the gap between availability and demand of power in the State is reduced.

iii) Sometimes power is purchased from different

States. The dependability on the other States is slightly reduced, since the availabilty power to state from this plant is increased.

2) The details of estimated cost of this plant is not available, since this project is being constructed by Nuclear Power Corporation a Govt. of India undertaking.

3) At present, the daily energy production is 4 to 4.5 Million Units from this projcet.

4) The energy is being availed from this projcet since 2-12-99. At present the plant has a capacity of producing of 180-200 MWs. of power. 4 to 4.5 Million Units of energy is produced daily. Out of this the State's share is 54MWs. The State is getting 1 to 1.3 Million Units daily.

ರಾಜ್ಯ ಸರ್ಕಾರದ ವಿವಿಧ ಸಾಲ ಯೋಜನೆ.
